FWMSPICK03 WMS-DIRECTED WAVE PICK

This mobile app directs the user to pick wave tasks from Oracle WMS based on user location. The directed wave pick mobile app assigns and loads tasks which are updated with the information entered upon completion of the transaction. A pick confirm transaction record is recorded and updated in Oracle E-Business Suite (Oracle Applications).

Note: any of these parameters may be easily adjusted to meet the unique requirements of your company adjusted to meet the unique requirements of your company.

| Key | Function |
|-----|-------------------------------|
| F1 | Search Data for Current Field |
| F4 | Exits mobile app |

Considerations

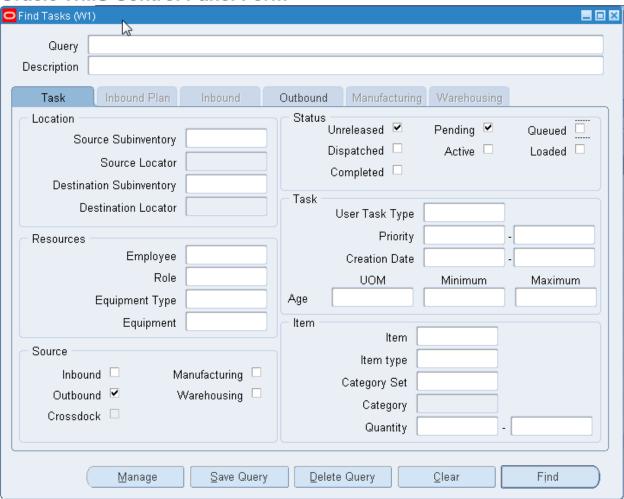

- 1. What Oracle EBS version is used to process the Selection transaction?
- 2. Are there any WMS Items that can be used?
- 3. How would you like to display all the pending tasks for a subinventory to a shop floor user or a supervisor be assigning tasks to a shop floor users?
- 4. Will the picking transactions need additional features for tasks or can they be accepted immediately upon being entered?

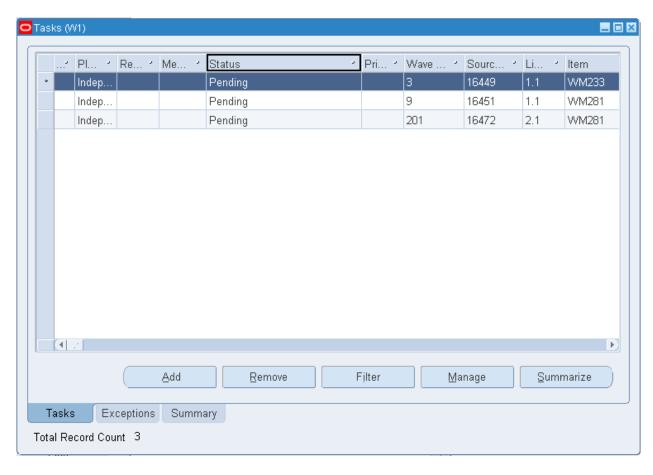

Oracle EBS Forms - Reference

Oracle WMS Control Panel Form

How Oracle EBS Processing Option Affects RFgen

Affected RFgen Forms and Transaction Macros

| Description | Form Name | Transaction Macro Name |
|-----------------------------|------------|------------------------|
| WMS – Directed Wave Picking | FWMSPICK03 | TWMSPICK03 |

Setup an RFgen Menu

Implement an RFgen mobile app using EBS Processing Options in an RFgen Menu.

| Form/Menu | Description to Display |
|------------|------------------------|
| FWMSPICK03 | Directed Wave Picking |

Basic Test Script

- 1. Select the Responsibility "Whse Mgmt Super User" in order to utilize WMS functionality.
- 2. Create a Sales Order for WMS then book the order.
- 3. Release the Sales Order that was just created by entering in the field Based On Rule "WMS Pick Release" and enter in additional data if necessary.
- 4. Select the WMS Control Board to query up "All Uncompleted Tasks" where the Sales Order that was released has now been assigned to tasks of a status with "Pending".
- 5. Login to RFgen with the appropriate User name and password.
- 6. Select the Directed Picking mobile app and start the tasks.
- 7. In the WMS Control Board, if the user queries the tasks again, the tasks' statuses are now "Loaded" for the tasks that have been assigned to the user.
- 8. After the user has gone through all the tasks, the tasks are loaded into the RFgen transaction manager where the User must select to Start Processing the transactions so that they are able to update to Oracle correctly.

Test Script Description: Selection

RFgen Input Requirements

Before you begin testing, ensure, for the combination of organization, subinventory and item(s) you will be testing, that the following is setup in Oracle EBS.

- a. Item
- b. System Quantity

A default organization is defined for the application.

Execution Procedures

| ID | Test Case | Expected Result | Pass | Fail |
|----|---|--|------|------|
| 1 | Type in a valid subinventory Press the ENTER key | RFGEN will validate and accept the s subinventory entered. | | |
| 2 | Type in a valid Locator Press the ENTER key | RFGEN will validate and accept the locator entered. | | |
| 3 | Type in a valid item# Press the ENTER key | RFGEN will validate and accept the item entered. | | |
| 4 | Type in a valid quantity Press the ENTER key | RFGEN will validate and accept the quantity entered. | | |
| 5 | Type in a valid to subinventory Press the ENTER key | RFGEN will validate and accept the destination subinventory entered. | | |
| 6 | Type in a valid to locator Press the ENTER key | RFGEN will validate and accept the destination locator entered. | | |
| 7 | Type in an invalid subinventory Press the ENTER key | RFGEN will validate and reject the subinventory entered. | | |
| 8 | Type in an invalid Locator Press the ENTER key | RFGEN will validate and reject the locator entered. | | |
| 9 | Type in an invalid item# Press the ENTER key | RFGEN will validate and reject the item entered. | | |
| 10 | Type in an invalid quantity Press the ENTER key | RFGEN will validate and reject the quantity entered. | | |
| 11 | Type in an invalid to subinventory Press the ENTER key | RFGEN will validate and reject the destination subinventory entered. | | |
| 12 | Type in an invalid to locator Press the ENTER key | RFGEN will validate and reject the destination locator entered. | | |
| 13 | At the RFGEN "Press F5 to Process" Prompt | Complete the tasks and pick confirm the lines, the validated values are inserted in interface table and Oracle EBS transacts and completes tasks . | | |
