FFAAI0200 FA – Asset Inquiry

This application is an inquiry showing all the details of an asset based on company and asset data.

Description of Workflow (1 of 2)

First the user scans or enters a company code if one does not default from the user's profile.
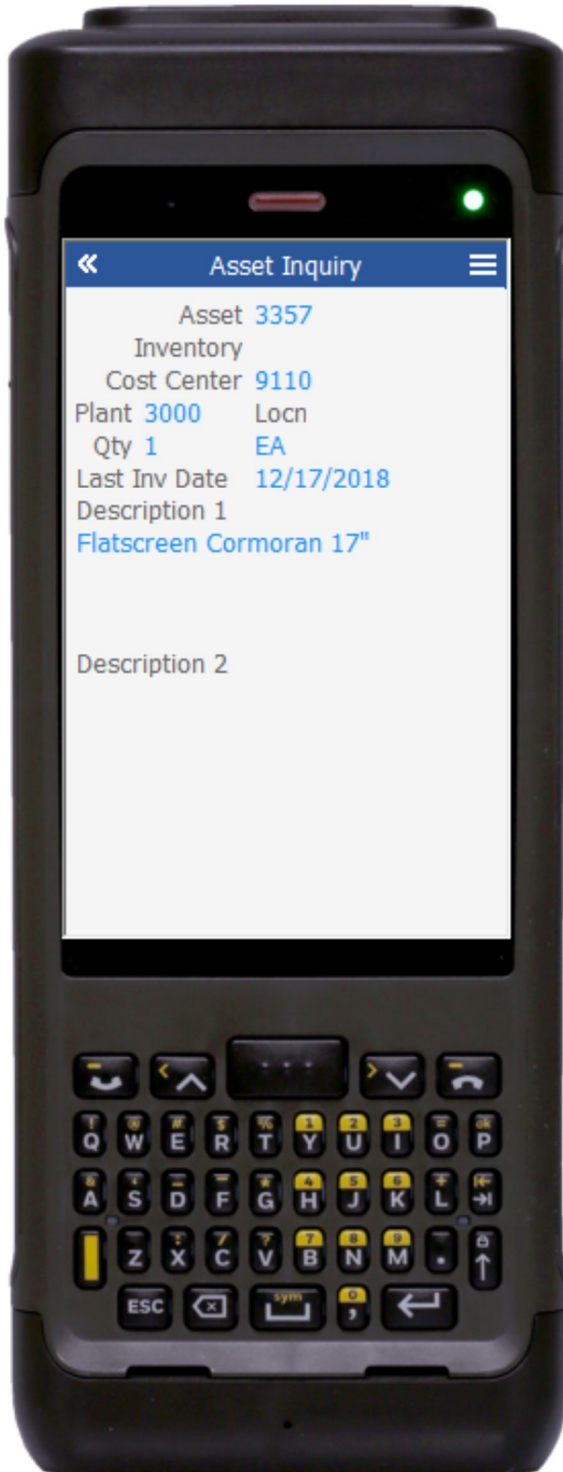

Next the user scans or enters an Asset ID and optionally, the asset sub-number.

If the sub-number is not entered, it will not be used to narrow the search for asset details.

The user taps the magnifying glass icon (Search button) to perform the search.

The user is taken to page 2.

The arrow in the upper left corner will take the user back to the menu.

The second page will display:
- Asset number
- Inventory number
- Serial number
- Cost Center
- Plant
- Location
- Unit of Measure
- Last Inventory date
- Asset description
- Additional Asset description

The double left arrow on page 2 takes the user back to page 1.
