FSOQD0200 SO – Inquiry by Delivery

This application will inquire for a list of deliveries that satisfy the filter criteria. The user may filter based on partially or fully picked deliveries, shipped deliveries, and a plant value.

Description of Workflow

First the user will select if only picked or shipped deliveries are required.

The user will scan, enter, or search for a plant value.

The user will scan, enter, or search for a delivery document.

The pick status and ship status of the selected delivery are displayed along with a list of lines.

The list of lines shows the line number, line status, material, and quantity on the line.

The arrow in the upper left corner will take the user back to the menu.

Technical Information

This lists the tables used for validations, searches and defaults by prompt.

Prompt	Table	Description
Plant	T001W	User Property "PLANT"
Delivery	LIKPUK	NA
App Lookup	LIPSUP	NA
